## Managed Services

Managed services is the practice of transferring day-to-day responsibility to another party, as a strategic method for improved, effective and efficient operations of your IT infrastructure.

This process ends up saving thousands of dollars off what you would typically spend on full-time IT salaries each year.

Our management services pricing is simple: **\$98 per user / month**

A managed service contract includes:

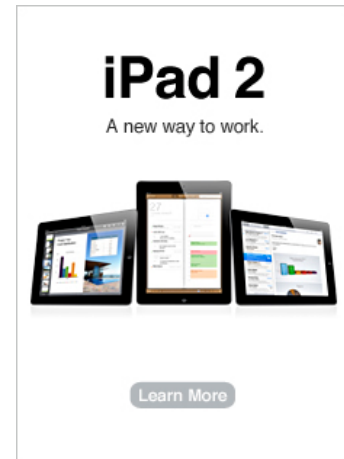

- Remote Support
- Help Desk ticketing system
- Business hours support (Monday to Friday, 10:00 – 17:00)

Not included:

- New project deployments
- Major upgrades
- After hours calls
- On-Site service
